### ***REQUESTOR'S POSITION SUMMARY***

**Requestor's Position Summary Dated December 3, 2004:** "It is our position that reimbursement was improperly determined pursuant to the acute care inpatient hospital fee guidelines of the Texas Workers' Compensation Commission...Under Rule 134.401 (c)(6) of the acute care inpatient hospital fee guidelines of the TWCC and the above referenced SOAH decisions, this claim would be reimbursed at the stop-loss rate of 75% as the total audited charges exceed the minimum stop-loss threshold of \$40,000.00 resulting in a reimbursement of \$56,680.20. An additional discount of 10% pursuant to the First Health PPO contract would result in a final reimbursable amount of \$51,012.18. Based on the clear wording of the rules of the TWCC, the carrier is liable, after the additional 10% allowed under the First Health PPO contract, for an additional sum owed our client in the amount of **\$7,920.26.**"

**Amount in Dispute:** \$7,920.26

### ***RESPONDENT'S POSITION SUMMARY***

**Respondent's Position Summary Dated November 22, 2004:** "We base our payments on the Texas Fee Guidelines and the Texas Workers' Compensation Commission Acts and Rules...The bill and documentation attached to the medical dispute has been re-reviewed and our position remains the same...Liberty Mutual does not believe that Spring Branch Medical Center is due any further reimbursement..."

**Response Submitted by:** Liberty Mutual Insurance Co.

**Respondent's Supplemental Position Summary Dated November 30, 2011:** "Requestor has failed to meet the Austin Third Court of Appeals' mandate that, to qualify for reimbursement under the Stop-Loss Exception ...a hospital must demonstrate two things: the services it provided during the admission were unusually costly and unusually extensive, and its total audited charges exceeded \$40,000...Because Requestor has not met its burden of demonstrating unusually extensive services, and the documentation adduced thus far fails to provide any rationale for the Requestor's qualification for payment under the Stop-Loss Exception, Respondent appropriately issued payment per the standard Texas surgical per diem rate. No additional monies are due to the Requestor."

## FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

### Background

1. 28 Texas Administrative Code §133.305 and §133.307, 27 *Texas Register* 12282, applicable to requests filed on or after January 1, 2003, sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.401, 22 *Texas Register* 6264, effective August 1, 1997, sets out the fee guidelines for inpatient services rendered in an acute care hospital.
3. 28 Texas Administrative Code §134.1, 27 *Texas Register* 4047, effective May 16, 2002, sets out the guidelines for a fair and reasonable amount of reimbursement in the absence of a contract or an applicable division fee guideline.

The services in dispute were reduced/denied by the respondent with the following reason codes:

#### Explanation of Benefits

- Z695-The charges for this hospitalization have been reduced based on the fee schedule allowance.
- F-Reduction according to fee guideline.
- Z557 – This contracted hospital has agreed to reduce this charge below fee schedule or usual and customary charges for your business.
- PA – First Health Network
- Z612 -This bill was reviewed in accordance with your contract with First Health.
- Z989 – The amount paid previously was less than is due. The current recommended amount is the result of supplemental payment.
- Z560 – The charge for this procedure exceeds the fee schedule or usual and customary values as established by INGENIX.
- X598 – Claim has been reevaluated based on additional documentation submitted; no additional payment due.
- C-Contract reduction.

### Issues

1. Did the audited charges exceed \$40,000.00?
2. Did the admission in dispute involve unusually extensive services?
3. Did the admission in dispute involve unusually costly services?
4. Is the requestor entitled to additional reimbursement?

### Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 *Texas Register* 6264. The Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 *South Western Reporter Third* 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this case were notified via form letter that the mandate for the decision cited above was issued on January 19, 2011. Each was given the opportunity to supplement their original MDR submission, position or response as applicable. The division received supplemental information as noted in the position summaries above. The supplemental information was shared among the parties as appropriate. The documentation filed by the requestor and respondent to date will be considered in determining whether the

admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the division will address whether the total audited charges **in this case** exceed \$40,000; whether the admission and disputed services **in this case** are unusually extensive; and whether the admission and disputed services **in this case** are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold as described in paragraph (6) of this subsection..." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states "to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold." Furthermore, (A) (v) of that same section states "Audited charges are those charges which remain after a bill review by the insurance carrier has been performed." Review of the explanation of benefits issued by the carrier finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$75,573.60. The division concludes that the total audited charges exceed \$40,000.
2. The requestor in its position statement presumes that it is entitled to the stop loss method of payment because the audited charges exceed \$40,000. As noted above, the Third Court of Appeals in its November 13, 2008 opinion rendered judgment to the contrary. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved...unusually extensive services." The requestor failed to demonstrate that the particulars of the admission in dispute constitute unusually extensive services; therefore, the division finds that the requestor did not meet 28 Texas Administrative Code §134.401(c)(6).
3. In regards to whether the services were unusually costly, the requestor presumes that because the bill exceeds \$40,000, the stop loss method of payment should apply. The Third Court of Appeals' November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must **demonstrate** that an admission involved unusually costly services thereby affirming 28 Texas Administrative Code §134.401(c)(6) which states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker." The requestor failed to demonstrate that the particulars of the admission in dispute constitutes unusually costly services; therefore, the division finds that the requestor failed to meet 28 Texas Administrative Code §134.401(c)(6).
4. 28 Texas Administrative Code §134.401(b)(2)(A) titled General Information states, in pertinent part, that "The basic reimbursement for acute care hospital inpatient services rendered shall be the lesser of:
  - (i) a rate for workers' compensation cases pre-negotiated between the carrier and the hospital;
  - (ii) the hospital's usual and customary charges; and
  - (iii) reimbursement as set out in section (c) of this section for that admission

In regards to a pre-negotiated rate, the services in dispute were reduced in part with the explanation "Z557 – This contracted hospital has agreed to reduce this charge below fee schedule or usual and customary charges for your business; and Z612 -This bill was reviewed in accordance with your contract with First Health." No documentation was provided to support that a reimbursement rate was negotiated between the workers' compensation insurance carrier Liberty Mutual Fire Insurance Co. and Spring Branch Medical Center prior to the services being rendered; therefore 28 Texas Administrative Code §134.401(b)(2)(A)(i) does not apply.

In regards to the hospital's usual and customary charges in this case, review of the medical bill finds that the health care provider's usual and customary charges equal \$75,573.60.

In regards to reimbursement set out in (c), the division determined that the requestor failed to support that the services in dispute are eligible for the stop-loss method of reimbursement; therefore 28 Texas Administrative Code §134.401(c)(1), titled Standard Per Diem Amount, and §134.401(c)(4), titled Additional Reimbursements, apply. The division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.

- Review of the submitted documentation finds that the services provided were surgical; therefore the standard per diem amount of \$1,118.00 per day applies. Division rule at 28 Texas Administrative Code §134.401(c)(3)(ii) states, in pertinent part, that "The applicable Workers' Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission." The length of stay was six days. The surgical per diem rate of \$1,118.00 multiplied by the length of stay of six days results in an allowable amount of \$6,708.00.

- 28 Texas Administrative Code §134.401(c)(4)(A), states “When medically necessary the following services indicated by revenue codes shall be reimbursed at cost to the hospital plus 10%: (i) Implantables (revenue codes 275, 276, and 278), and (ii) Orthotics and prosthetics (revenue code 274).”
- A review of the submitted medical bill indicates that the requestor billed revenue code 278 for Implants at \$26,539.50.
- Review of the medical documentation provided finds that although the requestor billed items under revenue code 278, no invoices were found to support the cost of the implantables billed. For that reason, no additional reimbursement can be recommended.
- 28 Texas Administrative Code §134.401(c)(4)(B) allows that “When medically necessary the following services indicated by revenue codes shall be reimbursed at a fair and reasonable rate: (iv) Blood (revenue codes 380-399).” A review of the submitted hospital bill finds that the requestor billed \$244.00 for revenue code 390-Blood/Storage Processing. 28 Texas Administrative Code §133.307(g)(3)(D), requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement.” Review of the submitted documentation finds that the requestor does not demonstrate or justify that the amount sought for revenue code 390 would be a fair and reasonable rate of reimbursement. Additional payment cannot be recommended.

The total reimbursement set out in the applicable portions of (c) results in a total of \$6,708.00.

Reimbursement for the services in dispute is therefore determined by the lesser of:

<b>§134.401(b)(2)(A)</b>	<b>Finding</b>
(i)	Not Applicable
(ii)	\$75,573.60
(iii)	\$6,708.00

The division concludes that application of the standard per diem amount and the additional reimbursements under §134.401(c)(4) represents the lesser of the three considerations. The respondent issued payment in the amount of \$43,091.92. Based upon the documentation submitted, no additional reimbursement can be recommended.

### **Conclusion**

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services, and failed to demonstrate that the services in dispute were unusually costly. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in no additional reimbursement.

## ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
